

SUPER SAVINGS!

HUSTLER®

Rethinking the Everyday

2019 MODEL SL300X

- Connects to feeder at either end reduces pasture damage from repositioning tractor for connection
- If you operate in hill country the optional Fence holds the bale in the cradle
- Dual hooks provide a stronger connection between cradle and feeder
- Toughest chains & cross bars on the market for longer life

GET 3.95% FINANCE

2019 MODEL CHAINLESS X5000

- Feeds out round and square bales of any shape or size even soggy balage with ease.
- The deeper chamber makes for simple, easy operation and holds the bale in steep country
- Single stage, Total-Control self-loading system provides safer bale loading than any other design
- The best value and most versatile trailed bale feeder on the market, and you can spec it up as much as you want
