# PASSION FOR INNOVATION

LANDINI NEW ZEALAND  
2026 CATALOGUE

# 140 YEARS OF INNOVATION

Last year, we proudly celebrated 140 years since the founding of Landini, the iconic tractor brand that has been a cornerstone of agricultural innovation. Established in 1884 by Giovanni Landini, in the heart of Fabbrico, Italy, Landini began as a wine-making machinery factory. Today, it remains at the forefront of agricultural technology as part of the Argo Tractors group, whose headquarters remain rooted in the same historic location.

Landini's legacy is one of pioneering spirit and relentless dedication to advancing mechanisation, not only in Italy but also across the globe. In countries like Australia and New Zealand, Landini has become synonymous with excellence, particularly in the viticulture, horticulture, and row crop farming sectors.

Driven by our core values of passion and innovation, Landini has consistently pushed the boundaries of what's possible in tractor design and performance. Our commitment to engineering excellence is evident in the fact that Argo Tractors reinvests 6% of its turnover each year into research and development, ensuring that we continue to deliver cutting-edge solutions that meet the evolving needs of modern agriculture.

The results speak for themselves. Over the past two years, Argo Tractors has garnered three prestigious Tractor of the Year awards, with the Landini Rex 4-120GT earning the title of Best Specialized Tractor of 2024.

Our range has grown exponentially, now offering open-field tractors from 60 - 305 hp, expanding far beyond our origins in specialty segments. As we reflect on our remarkable journey, we are excited to continue driving forward, fuelled by the same passion for innovation that has defined Landini for 140 years. Our history is rich, but our future is even brighter.

### ROPS & CAB SPECIALITY TRACTOR

MADE IN ITALY

The Landini Rex Tier 3 GE is a specialist orchard tractor perfect for farms with canopy crops or sloping terrain, offering Perkins reliability and affordability in a simple, rugged package. Well-suited to be locally modified for Kiwifruit applications.

- ✓ Tier 3, Perkins, 4 Cylinder engine provides maximum power ranging from 74-110 hp
- ✓ Featuring turbo after-cooler on models 100-110-120
- ✓ Multiple transmission options, including:
  - ✓ 12+12: 4 gears for 3 ranges
  - ✓ 16+16: 4 gears for 4 ranges w/Creeper
  - ✓ 32+32: 4 gears for 4 ranges w/Hi-Lo w/Creeper
- ✓ Optional Synchronized Shuttle or Reverse Power Shuttle (RPS)
- ✓ Hydraulic capacities up to 60+30 litres per min and mechanical hitch with lift capacity of up to 3,400 kg

REX T3 080F ROPS

### LOCALLY MODIFIED FOR KIWIFRUIT

- ✓ Professionally lowered for Kiwifruit applications, with a seat height of 690mm
- ✓ Available with a wet or dry clutch
- ✓ Rugged, user-friendly transmission providing the right speed for every application

# REX 3

## COMPACT CHAMPION

REX 3-080 GE LOW PROFILE CAB

### ROPS, CAB & LOW PROFILE CAB SPECIALITY TRACTOR

MADE IN ITALY

The Landini Rex 3 is a compact, versatile specialist tractor designed for vineyards, orchards, and greenhouse operations, with standout features including Stage V engines, exceptional manoeuvrability, and low-profile cab options.

- ✓ Kohler 4 Cylinder Tier 4i engine in both 68 and 75 hp
- ✓ Multiple transmission options, including:
  - ✓ 12+12: 4 gears for 3 ranges
  - ✓ 16+16: 4 gears for 4 ranges w/Creeper
- ✓ Synchronized Shuttle
- ✓ Hydraulic capacities up to 60+30 l/min and a mechanical hitch with lift capacity of up to 2,700kg
- ✓ Low Profile CAB - Roof height 1870mm

## UNBEATABLE VALUE

NEW MODEL  
AVAILABLE TO ORDER EARLY 2026

### ROPS & CAB

The Landini Discovery 75 & 90 deliver rugged durability, versatile performance, and affordability, making them the ideal choice for farmers who want a dependable workhorse without unnecessary complexity.

- ✓ Tier II, 4 Cylinder turbocharged diesel Engines in 75 and 90 hp
- ✓ Large fuel capacity of 65 litres
- ✓ 12+12 Synchro-mesh gearbox with synchronized mechanical shuttle for smooth operation
- ✓ Rear linkage with draft control and a lift capacity of 2,300kg
- ✓ 2 sets of rear hydraulic remotes
- ✓ Mechanical Suspension Seat
- ✓ 2 Speed Power Take Off (PTO)

DISCOVERY II 90

## LANDINI FRONT LOADERS: BUILT FOR STRENGTH

L20cm

Lift Capacity 1,200 KG

L20if

Lift Capacity 1,400 KG

L30im

Lift Capacity 1,700 KG

L50th

Lift Capacity 2,700 KG

### MANUAL LEVELLING F VERSION

On loaders with manual levelling, the operator uses the joystick to level the implement parallel to the ground. This prevents loss of load during handling operations.

### MECHANICAL SELF-LEVELLING M VERSION

Loaders with mechanical self-levelling system feature a levelling linkage located below the boom which automatically keeps the implement level throughout the lift without the need for the operator to use the joystick. This system reduces operator stress and fatigue.

### HYDRAULIC SELF-LEVELLING H VERSION

The self-levelling function is controlled by the hydraulic system which activates a compensating cylinder located under the implement. This system reduces operator workload and fatigue. Not available for the Lc range.

# SUPER II

## RELIABLE & TOUGH

SUPER II 90 ROPS

MADE IN ITALY

### ROPS & CAB

The Landini Super II is a dependable, versatile utility tractor that combines Italian engineering, Perkins engine reliability, and affordability, making it an excellent choice for farmers needing a tough, multi-purpose machine.

- ✓ Tier 3, 4 Cylinder turbocharged Perkins Engine, 84-110 hp
- ✓ Mechanical 12x12 transmission with synchronized gears for simplicity and durability.
- ✓ Optional 16+16 speed transmission incl. Creeper
- ✓ Optional Synchronized Shuttle or Reverse Power Shuttle
- ✓ 2 sets of rear hydraulic remotes (Max 4 on CAB)
- ✓ Mechanical Suspension Seat
- ✓ 2 Speed Power Take Off (PTO)
